- Lodging and Restaurants available nearby

Information: www.resourcescoalition.org

The PNW Miners Rally has been held for over 10 years providing Pacific Northwest mineral prospectors, miners and the general public an opportunity to openly discuss important events and actions affecting prospecting and mining,

demonstrate and observe new technologies, buy and sell equipment and parts, show off some findings and catch up with friends.

The rally coordinators annually invite and encourage members of the public, State and Federal agencies, and Legislators (Everybody) to come spend the weekend learning and re-living Washington's prospecting and mining heritage hoping to educate, inform and dispel untruths associated with Small Scale mineral prospecting and mining and rock and gem collecting.

There is plenty of free tent and RV camping (dry) and a limited food service available at the rally site.. For those with particular needs, lodging, restaurants and shopping is available in the nearby towns.

Saturday there will be a potluck dinner for those that wish to contribute and once it becomes DARK, a Metal Detector hunt for all ages where everybody goes away a winner.

If you desire additional information, have a product or service that you would like to sell or showcase at the rally or have a product or service you would like to donate, please contact our Rally Coordinator;
